

Features & Benefits of Steelhead Yacht Cranes

Finding the Yacht Crane You Need. The last thing you want is to struggle with a yacht crane that just doesn't perform. We believe that your yacht crane should be compact, trouble-free & reliable, look good and perform beautifully.

We are... "Raising the Bar on Yacht Crane Performance"

Feature	Benefit	How We Do It
Better Standard Features	<ul style="list-style-type: none"> Steelhead standard yacht cranes have great features that other manufacturers charge extra for or don't offer 	<ul style="list-style-type: none"> 2 year Platinum Warranty 10 Micron Stainless Filter for Hydraulic System Shear Transfer Standpipe System AMSteel Composite Rope. 40% stronger than steel cable, non rotating, no memory, doesn't splinter Lower profile, shorter stowed lengths SM series of cranes 800-3000 include retraction feature to save deck space
Strongest & Lightest Cranes in the Industry	<ul style="list-style-type: none"> Stronger more compact yacht crane saves deck space Improved Safety: superior design and materials also increase our yacht crane safety factors. 	<ul style="list-style-type: none"> Steelhead uses state-of-the-art marine grade materials to provide the lightest and strongest yacht cranes in the industry (also used in our standpipes): <ul style="list-style-type: none"> 17-4 PH Stainless Steel Truck Assemblies (equivalent strength to Aquamet 17; 4.2 X stronger than 5086 aluminum or 316 stainless) 6061 - T6 Aluminum Main Boom Bodies (27% stronger than 5086 aluminum) 2205 Duplex Stainless Boom Extensions (2.2X stronger than 316 stainless) AMSteel Composite Rope - 40% stronger than standard steel cable. Advanced Engineering Standards: All designs have been reviewed by independent engineering consultants, using FEA analysis. This allows us to meet MCA, Lloyd's and ABS requirements upon request.
Price	<ul style="list-style-type: none"> Our prices are lower than our competitors despite the fact that we offer a superior product. You actually save money on Steelhead yacht cranes when you compare features 	<ul style="list-style-type: none"> Many standard-price features on Steelhead yacht cranes are either charged at an additional upgrade cost or not available at other manufacturers. Some examples of Steelhead standards that cost extra elsewhere: <ul style="list-style-type: none"> 2 year Platinum Warranty 10 micron Stainless Filter - standard on SM1500 and up AMSteel Composite Rope - 40% stronger than standard steel cable No up-charges are required for engineering.
Service & Support	<ul style="list-style-type: none"> Worldwide service and sales support 	<ul style="list-style-type: none"> Simplified systems design to permit worldwide product support and service documented in a comprehensive installation and service manual Freight to any location worldwide direct from factory located in British Columbia, Canada
Corrosion Control	<ul style="list-style-type: none"> Comprehensive treatments to extend the life of your yacht crane We feel our program is the best in the industry 	<ul style="list-style-type: none"> Metalized Steel Components 5 step Awlgrip Paint System 316 Stainless Steel Trim Composite Bushings at all structural pin locations (SM1500 and larger) Gold Contacts on pendant controls Nickel Plating on main bearing Stainless Steel main truck
Other	<ul style="list-style-type: none"> Other useful features of Steelhead yacht cranes 	<ul style="list-style-type: none"> Single handle proportional controls to allow one person to launch and retrieve tender on SM1500 model and larger We offer wireless remote radio control pendants as an option All valves & flow controls are easily accessible for service and adjustment Hydraulic swiveling coupler on center line of yacht cranes to permit infinite rotation and eliminate possibility of hydraulic line kinking. Product range offered from 600 to 5500 pound capacity.
