New Service Centre Appointed in Europe for Steelhead Yacht Cranes

VANCOUVER, BC, CANADA (2/10/09) -- Canadian yacht crane manufacturer Steelhead Marine has appointed AP Marine as a new marine service centre for Steelhead products. AP Marine is based in Reinfeld, Germany and well-equipped to provide responsive and high quality installation, service or repair work on Steelhead cranes throughout Europe.

"We're pleased to have AP Marine working with us as an important part of our Dockside Service Tech program that we're expanding in key yacht centres globally" says Dan Thain, Steelhead president. "Since Europe is such a dynamic, expanding market for our cranes, we're thrilled to add AP Marine as a high-caliber partner to deliver strong service and provide crane installations to meet the demand."

AP Marine was founded in 2002 and designed to meet the stringent marine standards of the yachting industry. They are specialists in hydraulics, mechanics, electronics, integrated control systems and more. They have been certified to conform with EN ISO 9001 : 2000.

About Steelhead Marine

Steelhead builds the world's lightest and strongest high-performance davits and yacht cranes for the global market. The company, which is based in Mission, British Columbia, builds a series of over 30 different models from 600lb davits up to 10,000lb MED and SOLAS rated multi-function cranes.

Steelhead Marine, Ltd. is located at 7057 Beatty Drive, Mission B.C. V2V 6C4 Canada
