

STEELHEAD YACHT CRANES

raising the bar on yacht crane and davit performance

STEELHEAD

Simply the best yacht cranes in the world – bar none.

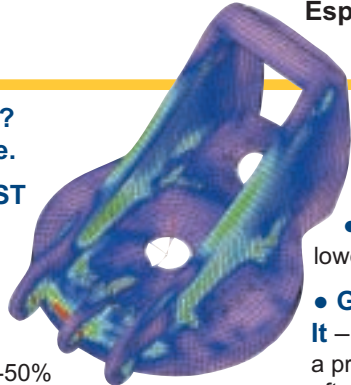

Steelhead builds the world's lightest and strongest high-performance yacht cranes.

If performance matters to you in your life – you'll accept nothing less than a Steelhead crane on your boat.

There's a big difference between a great crane and a mediocre one. Nothing's a bigger frustration and "buzz-kill" on your boat than when your crane doesn't work. An unreliable crane that just doesn't perform can ruin your day or may even cause serious safety threats.

When you're ready to enjoy your boat using your crane... *it's all about Performance.* For nearly a decade, yacht professionals and owners have come to know Steelhead as the company that raised the bar on the world's standards for yacht crane performance. **And we did it again with our latest Esprit crane line.**

What matters most to you in a crane? Compare the STEELHEAD Difference.

- **World's LIGHTEST and STRONGEST high-performance cranes** – Steelhead cranes are precisely engineered using a unique combination of high-strength, lightweight materials and innovative design that utilizes aircraft technology and FEA analysis. The result is a 30% lighter and 30-50% stronger high-performance crane on average. They use less deck space and are backed with the best global service and support in the crane industry.
- **Easy to USE and RELIABLE** – Installation is quick and easy, variable speed controls available and include a user manual with clear instructions.
- **Attractive, COMPACT Styling** – Silent linear winch technology produces a quiet, streamlined lower-profile boom. Unique boom retraction reduces by 1/3 the stowed length so it can be mounted in tight places to use less deck space where other cranes will not fit. Color-match to your yacht in a durable and beautiful high-gloss finish with polished stainless steel components.

- **Quicker DELIVERY** – Get your crane order 30-50% quicker.
- **Competitive PRICES** – Get the cranes you need at 10-20% lower cost.
- **Great SERVICE & FOLLOW-UP Support When You Need It** – 24 Hr Service and 24-Hr Parts mean you're not left stranded with a problem. We respond quickly if you need help with an installation, after-sale support or recommendations for a unique crane install.
- **Longer 2-Year WARRANTY** – all products are backed with an industry leading 2-year Platinum warranty.
- **CUSTOMIZE to your needs.** Steelhead is a one-stop source for your crane needs. Get your perfect crane from over 30 different crane designs ranging in size from 600lbs to 10,000 lbs with reaches from 8' to 30'. From the entry-level Whisper Davit line of quiet, compact davits to large CT (Custom Telescoping) cranes for heavy-lifting requirements up to 250,000 ft-lbs. **We can also custom design for uncommon load requirements, special reach needs and unique crane profiles.**

How does a Steelhead crane stack up for your crane choice?

Many of the world's top yacht builders trust Steelhead

• Fleming	• Ocean Alexander	• Selene
• Christensen	• Nordlund	• Horizon
• Nordhavn	• Nordic Tug	• Westport
• Mikelson Yachts	• Riviera	• Krogen
• Grand Banks	• Hatteras	• Luhrs

And more of the world's leading yacht builders are choosing Steelhead all the time!

Steelhead cranes are designed and produced to outperform the average crane:

- **30% Lighter** – at least 30% lighter than average cranes
- **30% Stronger** – at least 30% stronger than average cranes
- **30% Quicker** – at least 30% quicker delivery than average cranes
- **10% Lower Cost** – at least 10% lower cost than average cranes

100% Optimum Crane Performance.

Steelhead's superior design delivers greater lifting power, more efficiency and world-class value.

- ### Steelhead Benefits
- Exceptional Performance
 - Trouble-Free Reliability
 - Fast Deliveries—delivered on time
 - Easy to install
 - Global Service Network

Simply the best yacht cranes in the world — bar none.

New SERIES!

ALL NEW CRANE DESIGN — The *Esprit* Crane Line

First – we set the standard for affordable crane performance. Now we've blown it out of the water.

NOW EVEN BETTER, FASTER AND LOWER COST.

STEELHEAD YACHT CRANES

Simply the best yacht cranes in the world — bar none!

Ever since we rolled out our Whisper Davits, SM and CT series cranes, their power, performance and affordable prices have made them a big favorite among yacht owners, service centers and builders. Now we've taken our crane technology and design experience to the next level with our latest Esprit line of cranes. Take a look for yourself at the unique crane innovations on the Esprit. They're a dazzling new example of Steelhead's innovative design. They offer superior engineering and deliver exceptional performance and affordable quality to buyers. The Esprit crane line is the culmination of 15 years of manufacturing experience and Steelhead's absolute commitment to ground-breaking design, superior quality, extraordinary performance and trouble-free reliability in **every** Steelhead crane.

100% Performance

Esprit advantages - simply the best!

Esprit Models

- ES1000 – 1000 lb (10,000 ft/lb) – Perfect for most vessels under 55ft.
- ES1500 – 1500 lb (18,000 ft/lb) – Perfect for most vessels 55ft to 70ft.
- All Esprit models are 4-function capable cranes, with power luffing, rotation, winch and extension, with the advantage of being the only cranes in their class made from high-performance, lightweight aluminum that greatly reduces the crane deadweight on-board.
- The Esprit attracts broad appeal because of its impressive strength, versatility, stylish good looks and is so easy to install.

REACH and STORAGE: Ultimate VERSATILITY!

- REACH: Operate in a range of 6' to 10' lengths (ES1000) and 7' to 12' lengths (ES1500) in multi-boom positions.
- STORAGE: Extended reach = 10' 6" (ES1000) 12' (ES1500); Retracted position = 6' (ES1000) Retracted position = 7' (ES1500) (offers 4.5

(ES1000) 5' (ES1500) of boom travel and an exceptional compact storage requiring less deck space)

QUALITY and PRICE: A huge price/value advantage!

- The Esprit and every Steelhead crane uses the highest quality top-of-the-line materials and is built to exacting design standards.
- Prices of Esprit are typically 20-30% lower than other prime-time crane makers. Esprit prices are even comparable to the lower quality, sub-prime crane makers.

ORDER TIME: Wait time reduced!

- Esprit cranes are delivered in half the average wait-time than from the average crane source — even when ordering a custom paint color!

INSTALL: So easy to install!

- The Esprit is by far the easiest crane in its class to install.

See the complete Esprit line of cranes on page 7.

I would like to extend a special thank you to our customers for providing photos of their yachts, especially; Fleming Yachts, Nordhavn, Ocean Alexander, & Riviera. Thank you to Neil Rabinowitz for supplemental photography. Thanks to Dan Larson of Smart Marketing Inc for his consulting services on this project.
